Soligo Air — Pencil Ad Briefs (15 Creatives)

Copy-paste-ready briefs for Pencil to generate the 3 ad sets defined in the Q2 2026 Meta plan: **Tune-Up Trip-Wire**, **AC Sale + 0% Financing**, and **Air Care+ Membership**.

Pencil works best when you set up the **Brand + Product** once, then run each brief as a new "Creative" with the brief text, format, and copy variants. This doc is structured to mirror that workflow exactly.

```
Mandatory legal text on every creative (small, bottom):

Image safety rules:
- Real-feeling Florida imagery: palm trees, suburban Orlando homes, golden-hour light

Pencil uses audience to tune the creative direction (lifestyle, age cues, language).

```
Audience 1 — "Tune-Up Prospect"
Demographics: Homeowners 30-65, Orlando + Central FL (25mi radius)
Mindset: Practical, value-driven, weather-aware. Wants to avoid breakdowns, doesn't
want to be sold a new system.

What they fear: Being sold something they don't need.

Audience 2 — "AC Replacement Shopper"
Demographics: Homeowners 35-65, AC is 8+ years old, considering replacement
Mindset: Comparing quotes, thinking about financing, anxious about a $5-15K decision
Pain point: Power bill keeps climbing, AC is loud / weak / leaking
What they fear: Getting ripped off; pushy sales pressure

Audience 3 — "Membership Joiner"
Demographics: Homeowners 35-65 who already had service from Soligo Air OR engaged with
brand
```

```
Mindset: Already trusts the brand, wants peace of mind, values predictability
Pain point: Calling around for quotes every time something breaks
What they fear: Being locked into a contract

5 · After Pencil generates: review checklist

For each generated creative, verify before approving for ad upload:

- [ ] Logo present (bottom-right, 80px equivalent, not obscured)
- [ ] License text legible: `Licensed FL #CAC1823002`
- [ ] Phone visible: `(321) 384-7868`
- [ ] Brand colors only (#F75600, #002C6D, white) — flag any rogue palettes
- [ ] Text overlay <20% of canvas (Meta auto-throttle threshold)
- [ ] No misspellings ("Orlando", "tune-up", "$89", "$29/mo")
- [ ] Faces/imagery match the customer base (avoid generic stock looks)
- [ ] All 3 aspect ratios exported (1:1, 4:5, 9:16)
- [ ] Filename matches naming convention

6 · Upload to Meta Ads Manager

Once all 15 creatives × 3 aspects × 4 variants are generated and reviewed (approx 180 asset files), upload via Meta Ads Manager → Asset Library → Upload Media. Then build:

- **Campaign 1 (Tune-Up Trip-Wire):** 1 ad set, 5 ads (T1-T5), each ad with 3 headline + 3 primary-text variants in Dynamic Creative
- **Campaign 2 (Retargeting / Membership):** 1 ad set, 5 ads (M1-M5)
- **Campaign 3 (Reactive / Replacement):** 1 ad set, 5 ads (F1-F5)

Each ad's primary text rotation is in `docs/pencil-ad-briefs.md` (this file) — three hook lines per image. Use them in Dynamic Creative for systematic split-testing.
